

SHEEP MEN PLAN GREAT GATHERING

Committee Discusses Arrangements for Convention and Show at Salt Lake.

WILL ATTRACT THOUSANDS

UNUSUAL INTEREST DUE TO PROSPERITY OF INDUSTRY.

Plans for the convention and sheep show of the National Wool Growers' association were discussed at a meeting of the executive committee held yesterday at the Commercial club. Fisher S. Harris, secretary of the club, pointed out that the gathering will bring several thousand people to Salt Lake, and energetic measures are necessary if the undertaking is to reflect credit upon the city. A second meeting of the committee will be held today for the purpose of delegating authority to make the necessary arrangements.

Will Entertain the Visitors.

It is probable that the convention headquarters will be at the Kenyon and the sessions will be conducted in Armory hall. The opening session on Jan. 17 will be given over to addresses of welcome by Governor Cutler and Mayor Thompson, and responses by officers of the organization. A tabernacle concert and a "smoker" are among the entertainment features already scheduled. An entertainment committee will probably be appointed today.

The committee yesterday authorized the purchase of 1,000 badges for the sheep delegation. Two propositions for printing the program are under consideration and the award will be made today.

Canvass for Sineus of War.

The sheep men are being canvassed first to provide the necessary funds and the committee looks to the bankers and merchants of Salt Lake to make up any deficiency. Judges will be selected from among the prominent sheep men who attend the convention.

Interest manifested in the convention and show is almost unprecedented. This is partially explained by the conditions existing in the sheep industry. C. B. Stewart, of the Stewart-Harding Sheep company, which has about 6,000 head in Wyoming and Utah, said yesterday that the sheep men were never more prosperous.

Prices are excellent," said Mr. Stewart.

"The animals are in fine condition and the growers are correspondingly happy. The snow is another favorable factor, increasing the supply of water. The Salt Lake convention should be the greatest of the kind ever held."

Theron Geddes is Named.

"Americans" in the Second Hold Harmonious Convention.

Theron Geddes was nominated by the "Americans" in the Second ward, as previously arranged. His letter of acceptance was read before the convention assembled and was read immediately after the honor was conferred. The nomination was made by acclamation, following eulogistic speeches by Thomas Atkins and P. J. Donahue.

The convention assembled at the Cullen hotel with a gratifying attendance. Thomas Atkins, who occupied the chair, was assisted in his duties by Mr. Geddes. He gave the gathering considerable time. Mr. Homer congratulated the delegates on their numerical showing and said victory was in the air. Frank Christiansen was made secretary.

A lively debate ensued over the adoption of the union of the ward looked considerably like a bluff in view of the cut and dried character of the nomination. It was decided that the chairman of the respective districts in the ward should comprise the campaign committee, which was made up as follows: S. Atkins, A. J. Burnett, E. D. Burlingame, W. J. McLaughlin, J. H. Craig, Richard Bynon, J. E. Griffith, F. R. Christiansen, J. I. Burnett, Frank Wiseman and William Passler.

E. J. O'Donnell, Thomas Homer, B. F. Redmond, Sharp Walker and B. E. High were elected members of the finance committee.

The campaign committee assembled immediately after the convention adjourned and took the initial steps toward an energetic canvass.

The nomination of Mr. Geddes is believed to be a concession to the general demand for a non-partisan board of education. Mr. Geddes had no previous standing who has practically retired from business. He lives at 413 South West Temple street.

Kennedy Found Guilty.

Hotel Employee Fined for Fighting.

M. S. Kennedy, a runner for the Wilson hotel, was fined \$10 in police court yesterday for causing a battery on W. H. Rowe, a hack driver. Kennedy denied striking Rowe and called Officer Siegfuss, who is stationed at the Rio Grande depot, to testify in his behalf.

Contrary to Kennedy's apparent expectations, Siegfuss testified that Kennedy had struck Rowe and had so admitted to him when he was taken to the station. Kennedy claimed that Siegfuss told him he could arrest Rowe because of the latter's "pull" with the police department.

L. M. SULLIVAN EMPIRE BUILDER

Some Things "Larry" Has Done for Nevada and the West.

NEVER HIDES HIS LIGHT

ONE OF THE GREAT PROMOTERS OF THE COUNTRY.

It is not an exaggeration to say that hundreds of thousands of people scattered from Maine to California and from Florida to Nome know of L. M. Sullivan of the Sullivan Trust company of Goldfield, Nev. Like the negro Sam, of the comic supplement, they "seen his ad in de papah." Only a comparatively small percentage of these thousands, though, know "Larry" Sullivan. He came to town yesterday with his partner, Peter Grant, and will visit with D. H. Peery until Saturday, when he returns to his beloved Goldfield.

Makes a Town Famous.

If it had not been for "Larry" Sullivan the town of Goldfield would still be a mere blip on the map, the sort marked thus * on the railroad time tables, meaning "Stop on signal." Thanks to his splendidly generous use of advertising space in his promotion enterprises and in his trust company business, Goldfield has been advertised as never a town was advertised in this country before. Plenty of people know about Goldfield who are not certain whether towns twenty times as big are in the United States or Canada. And to this same "Larry" Sullivan they owe their information.

Promotes the Big Fight.

Mr. Sullivan was the principal promoter of the recent fight advertisement in the town of Goldfield. The eastern mind—Salt Lake is at least east of Goldfield—finds it hard to understand how the president of a big trust company and the promoter of a glove contest to a finish can be one and the same man. They don't know "Larry" Sullivan. He believes in advertising his own town by any methods that are legitimate, and he certainly "made good" with that fight.

Leads in Mining Stocks.

It is well within the bounds of truth to say that the L. M. Sullivan Trust company does a bigger business in mining stocks—perhaps one or two exceptions—than any other company in the United States. There are several reasons for this. First, in all the flotations that the company has made, it has been the leader. Second, many of the original subscribers has sustained a loss. Everyone of the stocks is selling today at a higher figure than the flotation price. This is because the properties are subjected to a careful examination before the stocks are put out, for Mr. Sullivan

has a whole lot in fact. I liked Salt

Lake twenty-two years ago and made up my mind then that some day I would come back to it. But somehow in the rush of business I have never been able to keep the promise I made to myself.

But say, Goldfield is the town. I am out of it now for the first time in fourteen months. This is the first vacation I've had in all that time but I'm anxious to get back to it. Goldfield is getting bigger and busier and livelier all the time. The sidewalks are crowded from early in the morning until late in the evening, the hotels and lodging houses are filled and there isn't a vacant building to be found anywhere.

Plenty of money for all.

"The best of the story is that everybody is making money, including the poor Salt Lakeers who have gone over there. New discoveries are being made all the time and there is every indication that the mines will be operated on a paying basis for many years to come. Goldfield is the natural distributing center for a large number of the new camps and it is sure to double and treble in size within a very short time.

"Of course Salt Lake is all right. It's a fine town, with its wide streets and its big business blocks, but Goldfield is plenty good enough for me. I'm going back there Saturday to buckle down to work for another long spell. And don't you forget for a minute that I am only one of about 7,000 of the best boosters any country ever saw."

No matter how severe or chronic a case of catarrh you may have, consult F. C. Schramm about the use of Hyomei. He has so much faith in the efficacy of this treatment that he gives his personal guarantee with every outfit he sells that it will effect a cure, or the money will be refunded.

In many instances Hyomei has cured catarrh when the patient has suffered from childhood. Quite a few people in Salt Lake City who have been unable for years to get a good night's sleep on account of disagreeable tickling and drooping at the back of the throat, have obtained quick relief from a few treatments with Hyomei, and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated healing through the pocket inhaler that comes with every outfit, and all catarrhal germs will be killed and the mucous membrane will be healed.

A complete Hyomei outfit costs but \$1. sufficient for at least two weeks' treatment, making it one of the most economical methods of curing catarrh. If the outfit does not complete a cure, extra bottles of Hyomei, if needed, can be bought for 50 cents. Remember that there is no risk in buying Hyomei. It costs nothing unless it cures.

L. M. Sullivan of Goldfield.

and his associates insist that they must have merit before they are offered to the public.

Believes in Printer's Ink.

Second, advertising. Third, and so on down to four thousand four hundred and forty-four, advertising. And then more advertising. The L. M. Sullivan Trust company people believe that newspaper publicity brings returns. Their experience has convinced them that this is true. They spend hundreds of thousands of dollars every year for newspaper space, and in a single day recently they received \$109,000 in cash and checks as payments on stock orders. The company's telegraph tolls amount to something like \$20,000 a month.

This is what "Larry" Sullivan and Peter Grant and the other members of the company are doing for Nevada and for the west. They have had a large share in changing Nevada from a vast desolation of sagebrush and jack rabbits into a busy mining state, producing millions of dollars in gold every quarter and attracting the attention of the world.

Once in Twenty Years.

Mr. Sullivan doesn't get to Salt Lake very often. He is too busy. The last time he was here was in 1884, on the day Governor Cleveland was first elected president of the United States. "The town has grown some," he said yesterday, "when he was found in Mr. Peery's office. 'It has grown a whole lot in fact. I liked Salt

Lake twenty-two years ago and made up my mind then that some day I would come back to it. But somehow in the rush of business I have never been able to keep the promise I made to myself.
